Power Mac G4 M5183 Internal Battery Replacement

Written By: Justin Petrilli

INTRODUCTION

Replacing the internal battery which regulates several functions in the computer, including the calendar.

Step 1 — Opening PowerMac G4 M5183 Case

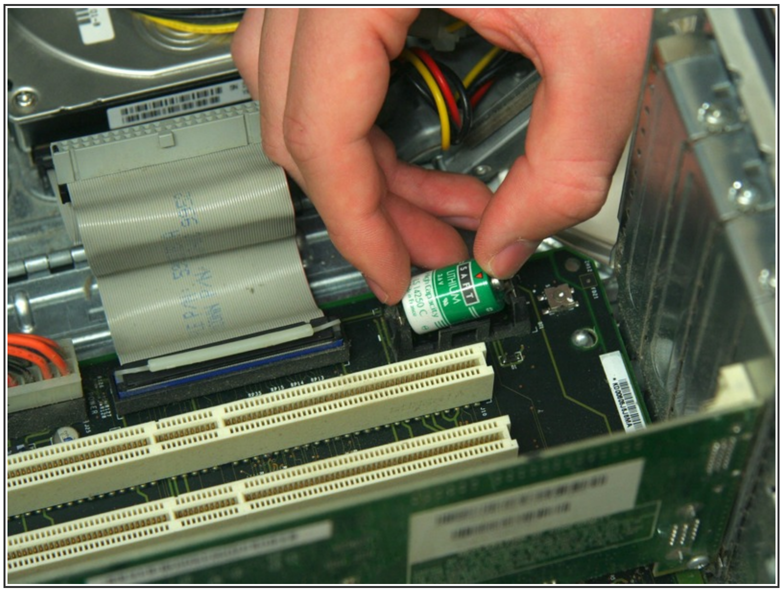

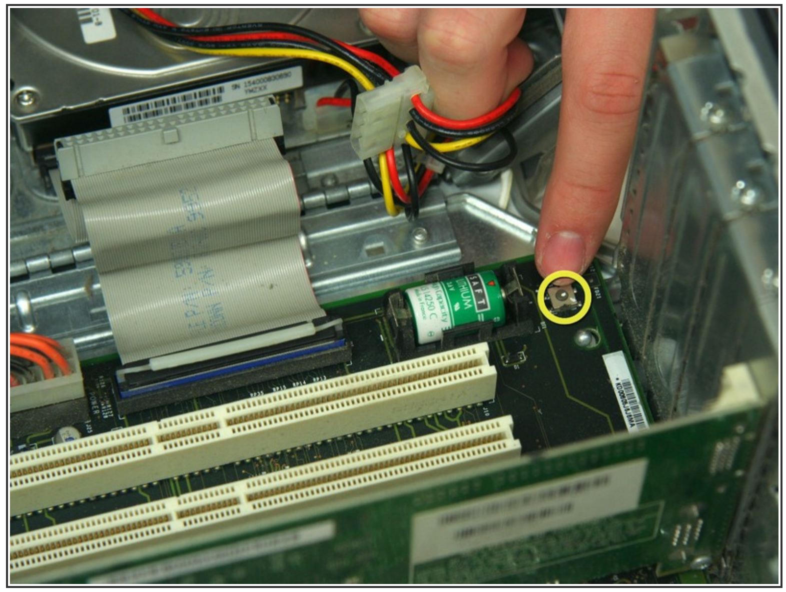

- Pull on outer latch.
- Lower door until it is level with your work surface.

⚠ Before working on the computer make sure it is not plugged into a power supply, then touch a metal object. This discharges static electricity, which could damage the computer.

Step 2 — Internal Battery

- Locate the battery.
- Remove and replace battery.
  - Push the PMU button once, and only once, to reset the power supply.
